THE PINKERTON PLEA.

According to the testimony given by the PINKERTONS before the Congressional Committee yesterday, they are engaged in the very harmless business of surplying ' watchmen " to protect the property of individuals and corporations during labor troubles. Their men are all highly wespectable in character and antecedents and are not permitted to carry arms unless they are authorby the proper legal authorities or sworn in as deputy sheriffs. GIVE THEM THE MONEY.

The Democratic members of Congress, and especially the New York Representatives, should pay no heed to the advice given them not to vote in favor of the fivenal manufacture and despecially the expenditures. The money is actually needed. The Fair is a National undertaking. If the Exposition had been located in this city Congress probably would not have been asked to appropriate a dollar towards its expenses. But it was located in Chicago, and now we have to do the best we can to help our successfully rival out.
